# **COURSE REPORT**

**Petroleum Microbiology** 

401443-3

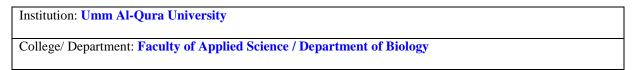

To be completed by course instructors at the end of each course and given to program coordinator.

If the course is taught in more than one location the course report should be prepared for each location by the course instructors responsible for the course in each location. A combined report should be prepared by the course coordinator and the separate location reports attached.

**Course Report** 

For guidance on the completion of this template, refer to Section 2.5 of Chapter 2 in Part 2 in this Handbook

### A Course Identification and General Information

A Course Identification and General Information
1. Course title and code. Petroleum Microbiology (401443-3)
2. If course is taught in more than one section indicate the section to which this report applies N/A
3. Year and semester to which this report applies. Second semester – 1437/1438 (372) / Spring 2017
4 Location (if not on main campus): Main Campus (Makkah)

# **B- Course Delivery**

1 Coverage of Planned Program			
Topics	Planned Contact Hours	Actual Contact Hours	Reason for Variations if there is a difference of more than 25% of the hours planned
<ul> <li>❖ General Introduction:         <ul> <li>General introduction bout petroleum Microbiology</li> <li>An overview about composition and nature of crude oil around the world.</li> </ul> </li> </ul>	2	2	
- Origins and distribution of petroleum			
<ul> <li>Biological origin and accumulation of petroleum from microfossils and sedimentary</li> </ul>	2	2	
basis.			

- Microbial aspects of oil prospecting			
Microbial metabolism of aliphatic hydrocarbons (straight and branched chains) under aerobic and anaerobic conditions	4	4	
Microbial metabolism of hydrocarbons aliphatic and cyclic aromatic hydrocarbons under anaerobic and aerobic conditions	6	6	
<ul> <li>Methane-utilizing bacteria (methanotrophs) microbial metabolism of methane</li> </ul>	2	2	
* Taxonomy of methane producing bacteria Identification, Nomenclature, classification of methane producing bacteria	2	2	
<ul> <li>Biotechnology and crude oil recovery</li> <li>Microbial enhanced crude oil recovery</li> <li>Sulphate reducing bacteria and its role in crude oil recovery process.</li> </ul>	2	2	
* Biodegradation of crude oil -Microbial degradation of petroleum products and use of microorganisms in oil clean-up operations; oil spillage Isolation of methane producing bacteria -Identification and characterization (phenotypic and genotypic characterization -Growth of crude oil degrading bacteria on the monomer of petroleum compoundsDetermination of crude oil degradation products by GC Mass	4	4	
<ul> <li>Role of microorganisms in corrosion of oil field Equipment Hydrocarbonoclastic bacteria;</li> </ul>	2	2	

Metallomonas bacteria that cause							
rusting of oil pipes;

by others in the department	

# **D** Resources and Facilities

Difficulties in access to resources or facilities (if any)	2. Consequences of any difficulties experienced for student learning in the course.
None	None

# E. Administrative Issues

1	Organizational or administrative difficulties encountered (if any)  None	Consequences of any difficulties experienced for student learning in the course.  None

# **F** Course Evaluation

1 Student evaluation of the course: (Attach Survey Results if available)	
a List the most important criticisms and strengths	
(A)- Strengths:	
(1) Course content very useful.	

- (2)- Course was helpful to improve critical thinking and problem solving rather than memorizing.
- (3)- Teaching methods were helpful to clarify all scientific facts.
- (4)- I was encouraged to give the best of my intellectual capacity.
- (5)- Connection between this course and other courses within this major was clear.
- (6)- The assessments of my exams, homework, practical session was fair and very clear.
- (7)- All course content was up to date
- (8)- Teaching staff member was enthusiastic to what he was doing throughout this course.

#### (B)- Criticisms:

(1)- Power point presentation that include slides and pictures was not used in teaching this course

b Response of instructor or course team to this evaluation

## **Response to criticisms:**

- (1)- Throughout the years, teaching this course using power point presentation particularly in explaining the metabolic pathways was not effective and made it difficult for students to understand these pathways. This was also confirmed by students attending this course in their evaluation, that the teaching method used to explain the metabolic pathways was very helpful and effective to understand the course
- 2. Other Evaluation -- What evaluations were received? Specify and attach reports where available. (eg. By head of department, peer observations, accreditation review, other stakeholders etc):

#### None

a List the most important criticisms and strengths

#### **None**

b Response of instructor or course team to this evaluation

None

## **G Planning for Improvement**

1. Progress on actions proposed for improving the course in previous course reports:			
Actions proposed in the most recent previous course	State whether each action was undertaken, the		
report(s)	impact, and if the proposed action was not		
	undertaken or completed, give reasons.		
None			

2. Other action taken to improve the course this semester/year

#### Kingdom of Saudi Arabia National Commission for Academic Accreditation & Assessment

المملكة العربية السعودية الهيئسة الوطنيسة للتقويم والاعست مساد الأكاديمسي

Provide a brief summary of any other action taken to improve the course and the results achieved. (For example, professional development for faculty, modifications to the course, new equipment, new teaching techniques etc.)

<b>A</b> 1			
	•	n	•

3. Action Plan for Next Semester/Year				
Actions Required	Completion Date	Person Responsible		
A Pagammandations to Program Coordinator (if	Paguirad)			
4. Recommendations to Program Coordinator (if Required)				
(Recommendations by the instructor to the program coordinator if any proposed action to improve the				
course would require approval at program, department or institutional level or that might affect other courses in the program.).				

Name of Course Instructor: Dr Hussein H. Abulreesh

Signature: H. H. Abulreesh Date Report Completed: 20/08/1438 H (16/05/2017)

Received by Program Coordinator: H. H. Abulreesh Date: 20/08/1438 H (16/05/2017)
