Office Hours

Office Hours

Preface

One of the most important goals of the process of transitioning to the trimester system is to raise the level of efficiency and effectiveness in using and managing time and to reduce the waste of time that may occur in some cases.

Effective office hours are one of the most significant tools to support the educational process. It is necessary to increase the minimum office hours for faculty members to at least one hour for each section they teach. Every faculty member is obligated to enhance the effectiveness of these office hours.

The following are examples of office hour sheets hanging beside the lecturer's office. The sheet includes information about the courses being taught and the specific times the lecturer is available in his office.
