

**Name:** *Saeed Mohammed Tayeb*

**Postal address:**  
Alshoqiyah, Makkah, Saudi Arabia

<b>Telephone number:</b> 0504533733	<b>Email address:</b> Smtayeb@uqu.edu.sa
--	---

**Comprehension Languages;**  
Arabic and English

**Current and previous job description;**  
My current job is a lecturer in Umm Alqura University.  
My previous job was in Novartis Company as medical Representative.

**Current and previous faculty position (if applicable);**  
My previous position in pharmacy collage at umm alqura university as a teaching assistant  
With hope to get promoted as lecturer in next few days

**Qualifications:**  
*BSc, MSc and PhD....etc*

**2012:** *Doctor of Pharmacy (Pharm.D) with a GPA 3.13 out of 4 from Faculty of Pharmacy at umm Al-Qura University, Makkah, Saudi Arabia.*

**2017:** *Pharmaceutical Science and Medicinal Chemistry from Faculty of Chemistry at Loughborough University, Loughborough, UK.*

**Professional registration:**

**Research experience and interests:**  
My research experience has mostly gained from my Msc degree. One of these experience is the criteria that i need to make a research which starting from building research questions and selecting your research to how to write your synthesis that should contains less of plagiarism, skills you follow in labs for compound synthesis, new studies support my research ....etc.

My research interested in medicinal chemistry that is discovering and developing a lead compounds that have a variety of pharmacological action.

**Current research, research gate and google scholar::**  
I have a plan to complete my phD on new synthetic methodology for synthesis of drug like scaffolds and natural products

**Research training acquired:**  
Summer research project of Short and efficient Synthesis of Erogorgiaene natural product at Loughborough University, Loughborough, UK, 01/06/2016

**Acquired laboratory and clinical techniques:**

**A: Clinical techniques:**

- 1- Critical care unit at alyad hospital ,Makkah, Saudi Arabia (4-feb,2012).
- 2- Intensive Care Unit alyad hospital , Makkah, Saudi Arabia (14-Jan,2012).
- 3- Hospital Pharmacy Rotation in King Faisal , Makkah, Saudi Arabia (26-NOV,2011).
- 4- Internal Medicine at King Abdullah Hospital, Makkah, Saudi Arabia (17-DEC, 2011).
- 5- Ambulatory Care Rotation at alzaher Hospital, Makkah, Saudi Arabia (26/DEC/2011).
- 6- Infectious diseases rotation at king Abdullah city hospital, Makkah,  
Saudi Arabia (10-Mar,2012)
- 7- First Summer training in hera Hospital , Makkah, Saudi Arabia , 2008
- 8- Second Summer training in Alnoor Hospital , Makkah, Saudi Arabia, 2009

**B: Laboratory techniques:**

Medicinal Chemistry lab experience is consists of intensive practical training in basic medicinal chemistry lab such as handling with machines which necessary in most of compound synthesis like HPLC, NMR, GC .....etc. It is also intended to provide the skills necessary to undertake original research projects in medicinal chemistry.

**Relevant publications:**

**Signature:**

A simple, stylized handwritten signature consisting of a horizontal line that curves upwards and then downwards, with two vertical strokes at the end.
