Course Specifications

Institution: Umm Al-Qura University	Date: 20/3/2018
College/Department: English Language Centre	

A. Course Identification and General Information

1. Course title and code: <i>Medical English</i> 4800173-4			
2. Credit hours: 4.0			
3. Program(s) in which the course is offered. (If general elective available in many programs indicate this rather than list programs) Preparatory Year Program (PYP), Medical Stream			
4. Name of faculty member responsible for the course ELC male and female staff members			
5. Level/ Year at which this course is offered: Preparatory Year (Year 1)/ Level 2			
6. Pre-requisites for this course (if any) English Language (4800170-6)			
7. Co-requisites for this course (if any) None			
8. Location if not on main campus Male Section: Abdiya Main Campus Female Section: Abdiah PY Campus			
9. Mode of Instruction (mark all that apply)			
a. traditional classroom	<input checked="" type="checkbox"/>	What percentage?	<input type="text" value="100%"/>
b. blended (traditional and online)	<input type="checkbox"/>	What percentage?	<input type="text"/>
c. e-learning	<input type="checkbox"/>	What percentage?	<input type="text"/>
d. correspondence	<input type="checkbox"/>	What percentage?	<input type="text"/>
f. other	<input type="checkbox"/>	What percentage?	<input type="text"/>
Comments: Blended learning is optional for those who would like to utilize it (5%).			

B Objectives

1. What is the main purpose for this course?

This ESP (English for Specific Purposes) course aims at equipping students with the functional language they need in order to succeed in their chosen program. Overall, the course presents students with the language, information, and skills needed for their university program course of study. It presents them with English from a variety of medical fields and situations and develop their communication skills. Putting a special emphasis on fluency with an integration of all language skills, the course aims at developing students' competence in medical English in reading, writing, listening, and speaking as well as in medical terminology.

2. Briefly describe any plans for developing and improving the course that are being implemented. (e.g. increased use of IT or web based reference material, changes in content as a result of new research in the field)

None (limited personal efforts by some teachers).

C. Course Description (Note: General description in the form used in Bulletin or handbook)

Course Description:

Medical English 4800173 – 4 is an English for Specific Purposes (ESP) course which runs in the second semester of every year beginning in February. The course is offered in 16 weeks with a 16-hour-per-week intensive teaching plan. We use a professional careers curriculum provided by Oxford University Press consisting of two textbooks: *Oxford English for Careers: Nursing 1 and Nursing 2*. In order to be enrolled in this course, students have to complete the pre-required EGP course.

The course **Medical English 4800173-4** is offered to students enrolled in the second semester of the preparatory year. This course is directed to students who are going to pursue their studies in the various medical and health colleges (e.g., Medicine and Medical Sciences, Dentistry, Physiotherapy, Health Administration, Pharmacology... etc.). The course prepares students for their core courses which are taught in the English medium providing them with the necessary jargon and with opportunities to practice all the four language skills in a meaningful, subject-specific, context.

1. Topics to be Covered		
List of Topics	No. of Weeks	Contact hours
Nursing 1 Book: Units 1-15	8 weeks	16 hours per week
Nursing 2 Book: Units 1 -15	8 weeks	16 hours per week

2. Course components (total contact hours and credits per semester):						
	Lecture	Tutorial	Laboratory or Studio	Practical	Other:	Total
Contact Hours	16 per week (16 weeks)					16 per week (16 weeks)
Credit	4					4

3. Additional private study/learning hours expected for students per week.	10 hours per week minimum
--	----------------------------------

4. Course Learning Outcomes in NQF Domains of Learning and Alignment with Assessment Methods and Teaching Strategy			
On the table below are the five NQF Learning Domains, numbered in the left column.			
<p>First, insert the suitable and measurable course learning outcomes required in the appropriate learning domains (see suggestions below the table). Second, insert supporting teaching strategies that fit and align with the assessment methods and intended learning outcomes. Third, insert appropriate assessment methods that accurately measure and evaluate the learning outcome. Each course learning outcomes, assessment method, and teaching strategy ought to reasonably fit and flow together as an integrated learning and teaching process. (Courses are not required to include learning outcomes from each domain.)</p>			
Code #	NQF Learning Domains And Course Learning Outcomes	Course Teaching Strategies	Course Assessment Methods
1.0	Knowledge		
1.1	<p>Grammar</p> <ul style="list-style-type: none"> Students will be able to revise and expand their knowledge of grammatical structures 	<ul style="list-style-type: none"> Providing detailed explanations of each 	<ul style="list-style-type: none"> Grammar multiple choice items in unified mid-term and final exams. Grammar multiple choice items in quizzes

	<p>(built during the EGP course)</p> <ul style="list-style-type: none"> Students will be able to use these tenses correctly while being engaged in medical situations involving the four language skills. 	<p>grammatical point</p> <ul style="list-style-type: none"> Providing ample medical context for practicing each grammatical point Urging students to use grammar correctly and appropriately through the four language skills Grammar tests provided in the teacher's manual. Workbook grammar exercises (Nursing 1 Book only) The Oxford Nursing Online Practice Website (Grammar Section) 	<ul style="list-style-type: none"> Continuous assessment of the use of grammar while being engaged in the four language skills
1.2	<p>Vocabulary</p> <ul style="list-style-type: none"> Students will be able to build their basic medical terminology repertoire focusing on all components of word knowledge (pronunciation, spelling, part of speech, word stress, and intonation). Students will develop knowledge of medical roots, affixes and abbreviations. Students will be able to use this medical terminology repertoire appropriately while being engaged in the four language skills. 	<ul style="list-style-type: none"> Glossary provided in the student's book Use of medical dictionaries Use of vocabulary notebooks Lists of medical roots, affixes, and abbreviations. Urging students to use vocabulary appropriately through the four language skills Workbook vocabulary exercises 	<ul style="list-style-type: none"> Vocabulary multiple choice items in unified mid-term and final exams. Vocabulary multiple choice items in quizzes Continuous assessment of the use of medical terminology while being engaged in the four language skills Continuous assessment of the medical vocabulary notebook

		(Nursing 1 Book only)	
		<ul style="list-style-type: none"> The Oxford Nursing Online Practice Website (Vocabulary Section) 	
2.0	Cognitive Skills		
2.1	<p>Four language skills (listening/ reading/ writing/ speaking)</p> <ul style="list-style-type: none"> Students will be able to demonstrate deep understanding of a wide range of authentic medical/medical-related spoken text types and situations. Students will be able to demonstrate deep understanding of a wide range of authentic medical/medical-related written text types and situations. Students will be able to develop their competence in the use of a variety of sentence structure in different medical situations ranging from formal to informal. <p>1. Students will be able to improve their ability in verbal communication and interaction with professionals in the medical field and non-specialists.</p> <ul style="list-style-type: none"> Students will be able to present a medical topic orally in English 	<ul style="list-style-type: none"> An integrative approach to teaching the four language skills within the medical context. Each unit of the curriculum covers a particular topic and smoothly transitions between the four language skills teaching relevant grammar and medical terminology and providing students with useful contextual practice. Urging students to push themselves towards more medical-language practice both inside the classroom and outside of it Writing practice in the workbook (Nursing 1 Book only) Reading practice in the workbook 	<ul style="list-style-type: none"> Medical reading and listening comprehension tasks in unified mid-term and final exams Medical reading and listening comprehension tasks in quizzes Continuous assessment of the ability to read/ listen to English medical texts and demonstrate comprehension Continuous assessment of students' medical writing ability in assignments and short quizzes Continuous assessment of students' spoken ability within the medical field in class Oral presentation on a medical topic of relevance to students

		<p>(Nursing 1 Book only)</p> <ul style="list-style-type: none"> • Extra medical reading materials in the Reading bank (attached with the student's book) • Extra speaking practice provided in the teacher's manual. • The Oxford Nursing Online Practice Website (Listening Section) 	
3.0	Interpersonal Skills & Responsibility		
3.1	<p>Pragmatics</p> <ul style="list-style-type: none"> • Students will be able to demonstrate active engagement with the medical genre in the English medium • Students will be able to use speech acts and formulaic language appropriately within the medical context 	<ul style="list-style-type: none"> • Active engagement in medical-English pragmatics through the four basic skills • Explicit teaching of speech acts and formulaic sequences used both in the written and spoken medical-English mediums • Urging students to use medical-English pragmatics correctly through the four basic skills 	<ul style="list-style-type: none"> • Multiple choice items in mid-term and final exams focusing on speech acts and the use of formulaic sequences within the medical field • Multiple choice items in quizzes focusing on speech acts and the use of formulaic sequences within the medical field • Oral presentation assessment which focuses on the use of acceptable medical sequences and expressions • Writing assessment which focuses on the use of acceptable medical sequences and expressions
3.2	<p>Self-learning responsibility</p> <ul style="list-style-type: none"> • Students will be able to develop life-long learning strategies so that they can take full responsibility of their English 	<ul style="list-style-type: none"> • Providing students with useful medical resources for extra online practice on the internet that can 	<ul style="list-style-type: none"> • Continuous assessment of students' coverage of the Oxford Nursing Online Practice Website

	language skill development within the medical field	<p>be used outside the classroom, such as the Oxford Nursing Online Practice Website</p> <ul style="list-style-type: none"> • Providing students with useful practice on dividing medical words into their component Latin and Greek roots and affixes. • Explicit teaching of medical dictionary use strategies • Explicit teaching of self-assessment strategies and tools that can help students to assess their own progress (e.g., editing one's own written and spoken medical production) 	
4.0	Communication, Information Technology, Numerical		
4.1	<p>Effective communication in English</p> <ul style="list-style-type: none"> • Students will be able to communicate clearly in the medical English context through both the spoken and the written mediums 	<ul style="list-style-type: none"> • Explicit teaching strategies that focus on message delivery both in the spoken and written English mediums in a way that ensures mutual understanding • Open class discussions on medical topics that aim at improving students' ability to communicate effectively with medical staff and patients • Providing 	<ul style="list-style-type: none"> • Continuous assessment of student's ability to communicate in English through classroom exchanges and group discussions on medical topics • Oral presentation assessment with a focus on clear message delivery in the medical context • Writing continuous assessment with a focus on clear message delivery in the medical context

		students with positive and negative feedback on how to improve message delivery within the medical field	
4.2	<p>Numerical skills</p> <ul style="list-style-type: none"> Students will be able to use numbers correctly in medical English (figures, and equations) in both the spoken and written mediums (including reading dates, quantities, and different forms of numbers) 	<ul style="list-style-type: none"> Explicit teaching of the rules of reading numbers in the medical field including figures and equations Urging students to use numbers correctly in their spoken and written medical output Giving students positive and negative feedback on the use of numbers in their spoken and written medical output 	<ul style="list-style-type: none"> Multiple choice items in mid-term and final exams focusing on the ability to use numbers correctly in the medical field Multiple choice items in quizzes focusing on the ability to use numbers correctly in the medical field Continuous assessment of student's ability to use numbers correctly in medical English through classroom exchanges and group discussions Oral presentation assessment which focuses on student's ability to use numbers correctly in medical English
5.0	Psychomotor		
	Not applicable		

5. Schedule of Assessment Tasks for Students During the Semester			
	Assessment task (e.g. essay, test, group project, examination, speech, oral presentation, etc.)	Week Due	Proportion of Total Assessment
1	Course work (including quizzes, written and spoken assignments, presentations, projects and classroom and online participation)	All over the semester	20
2	Midterm Test	Week 7	25
3	Progressive assessment of Nursing 1 Listening skill quizzes, held in a regular classroom	Weeks 1-7	5
4	Graded Readers Bonus Grades (optional, obtained in accordance with the semester requirements)	Week 14	5
5	Final Exam	Week 16	50

D. Student Academic Counseling and Support

1. Arrangements for availability of faculty and teaching staff for individual student consultations and academic advice. (include amount of time teaching staff are expected to be available each week)

Minimum requirement of two office hours a week per group.

E Learning Resources

1. List Required Textbooks

Grice, T., & Meehan, A. (2009). *Nursing 1 – Student's Book*. Oxford: Oxford University Press.

Grice, T., & Greenan, J. (2009). *Nursing 2 – Student's Book*. Oxford: Oxford University Press.

Grice, T. (2007). *Nursing 1: Practice File*. Oxford: Oxford University Press.

Teacher's books:

Grice, T., & Meehan, A. (2009). *Nursing 1 – Teacher's Resource Book*. Oxford: Oxford University Press.

Grice, T., & Greenan, J. (2009). *Nursing 2 – Teacher’s Resource Book*. Oxford: Oxford University Press.

2. List Essential References Materials (Journals, Reports, etc.)
Not available.

3. List Recommended Textbooks and Reference Material (Journals, Reports, etc)

Danish, M. I. (2007). *Short Textbook of Medical Diagnoses and Management*. Karachi, Pakistan: Paramount Publishing Enterprise.

Dorland’s Illustrated Medical Dictionary. (2011). USA: Saunders.

Essential Atlas of Human Anatomy (2001). New York: Barron’s Educational Series.

Glendinning, E. H., & Beverly, A. S. (2004). *English in Medicine Audio CD: A Course in Communication Skills*. Cambridge: Cambridge University Press.

Glendinning, E., & Howard, R. (2007). *Professional English in Use - Medicine*. Cambridge: Cambridge University Press.

Stedman’s Medical Dictionary. (2000). London: Lippincott Williams & Wilkins.

Epocrates

F. Facilities Required

Indicate requirements for the course including size of classrooms and laboratories (i.e. number of seats in classrooms and laboratories, extent of computer access etc.)
1. Accommodation (Classrooms, laboratories, demonstration rooms/labs, etc.) Language laboratories/classrooms with 30 seats and internet access.
2. Computing resources (AV, data show, Smart Board, software, etc.) Data show or smart board, computer or tablet and speakers.
3. Other resources (specify, e.g. if specific laboratory equipment is required, list requirements or attach list) None

G Course Evaluation and Improvement Processes

1 Strategies for Obtaining Student Feedback on Effectiveness of Teaching Not available. If a teacher requires feedback, it would be a through the teacher's personal effort and means of obtaining the feedback.
2 Other Strategies for Evaluation of Teaching by the Instructor or by the Department Not available

<p>3 Processes for Improvement of Teaching</p> <ul style="list-style-type: none">• Annual teaching workshops provided by Oxford University Press to staff members in both the male and female sections.• Internal workshops provided by experienced ELC staff members on various topics related to teaching and assessment.
<p>4. Processes for Verifying Standards of Student Achievement (e.g. check marking by an independent member teaching staff of a sample of student work, periodic exchange and remarking of tests or a sample of assignments with staff at another institution)</p> <p>Unified mid-term and final exams consist of multiple choice items and are machine-corrected to ensure score reliability</p>
<p>5 Describe the planning arrangements for periodically reviewing course effectiveness and planning for improvement.</p> <p>Online surveys developed by ELC administration to collect feedback from staff members on the effectiveness of the curriculum used and the strategies implemented</p>
