

Abstract

The right of the Holy Qur'an on the Muslim is to believe that it is the word of Allah Almighty, glorify it, read it with its rulings and Tajweed, understand it and study it. And every Muslim should give everything they can to serve the Holy Qur'an. Therefore, we are interested in developing the Umm Al-Qura electronic Maqraah by adding new services and developing current services to achieving the highest quality Conclusion of future work and applying the best methods of technology to serve the book of Allah and facilitate its learning.

Methodology

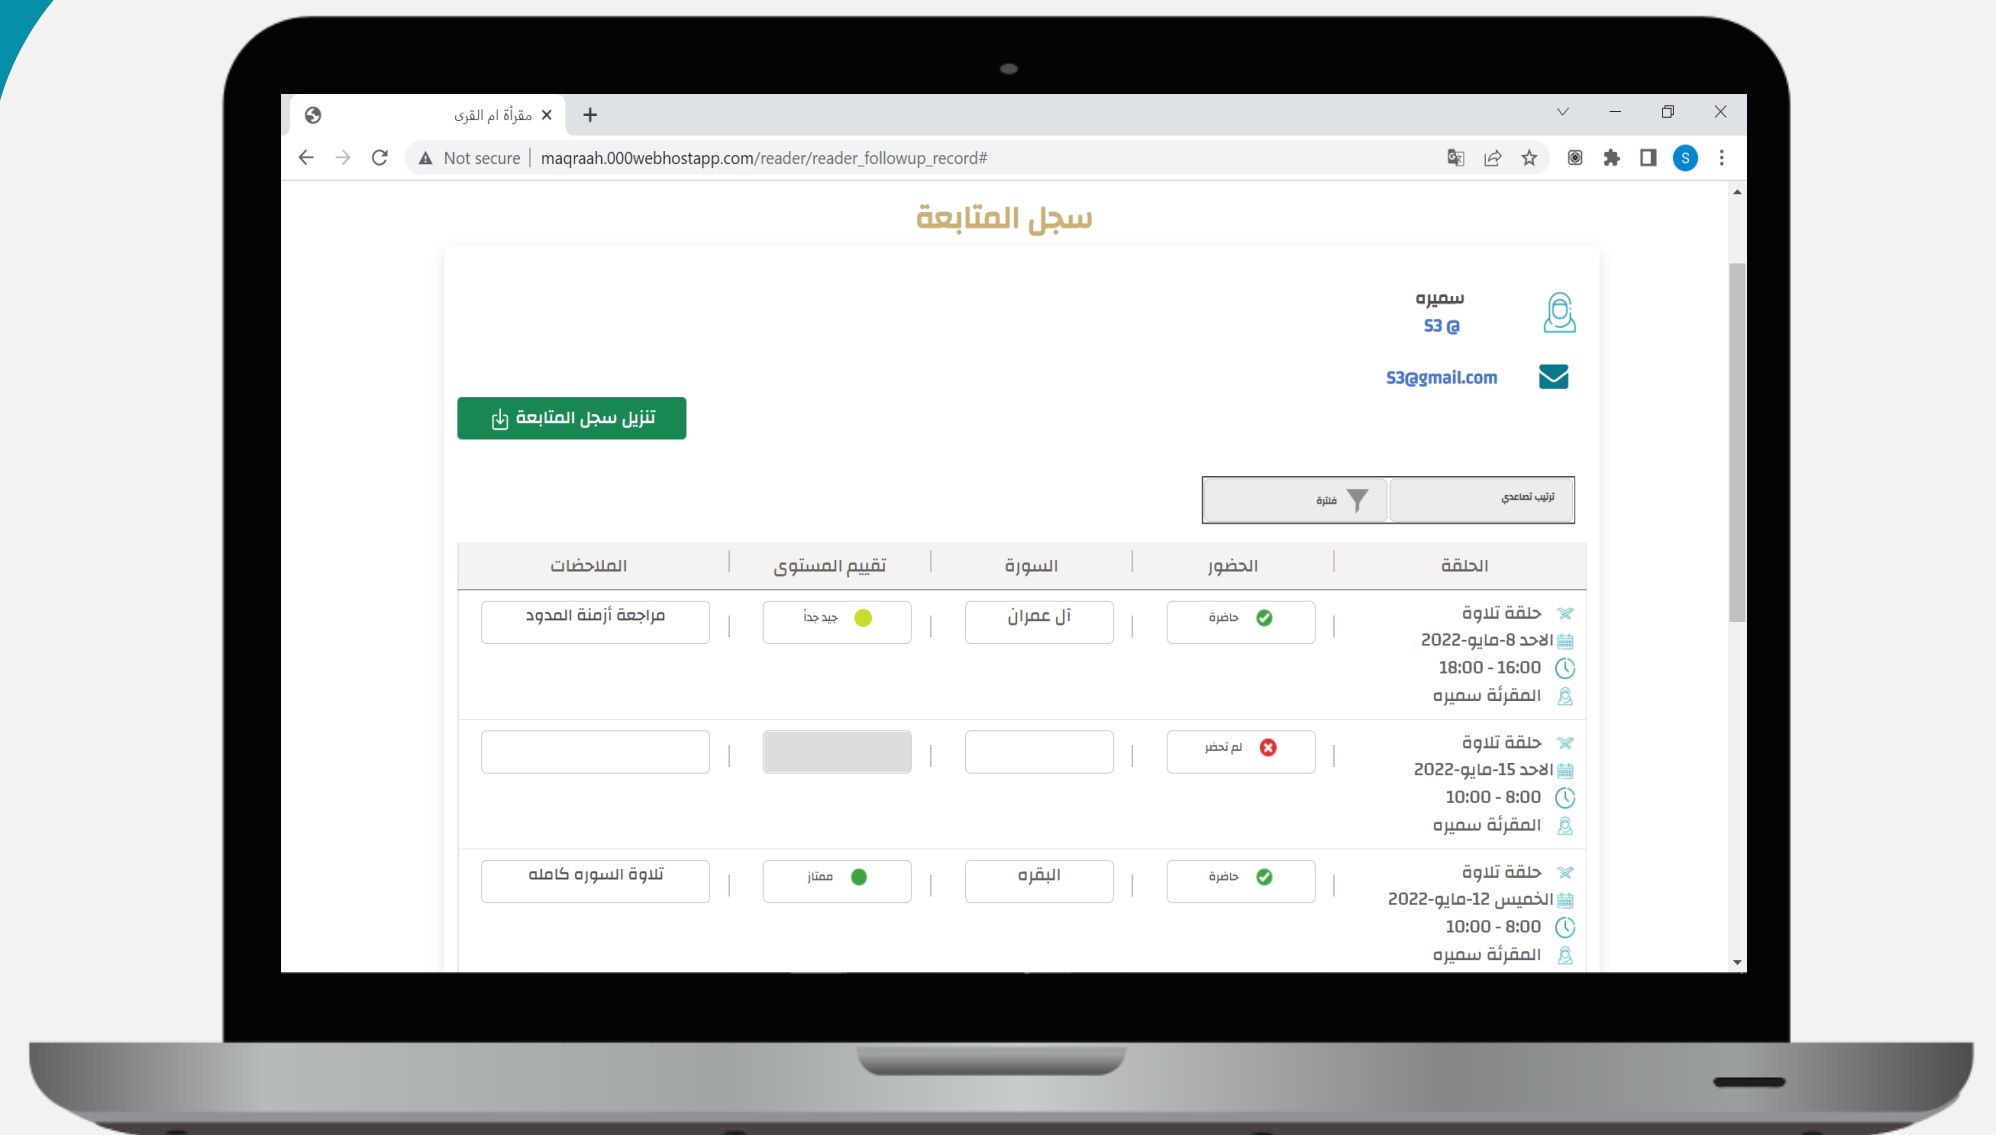

Objectives

This website aims to serve the book of Allah, facilitating its education by providing services that contribute to improving the educational process between the Sheikh and readers around the world.

Related work

Some similar systems, such as the Al-Haramain Maqraah, Mecca Maqraah and the Islamic Academy, were distinguished by the presence of a library and two types of sessions that depend on the gender of the reader and our Maqraah included the pervious features and was also distinguished by the follow-up record.

Result

The Reader can view a follow-up record that includes all shaikh(s) evaluations for each session he joined it. In addition, you can print it.

Development Tools

Conclusion & Future Works

This project includes the development of a website that facilitates learning the Holy Quran for all Muslims around the world, including educational videos and live sessions.

In future work, the website will provide a specific design of the Maqraah that suits the children and nominate outstanding readers for international competitions.
