## 01. Introduction

Our App is specifically designed to facilitate the lawyers and clients so that they have complete ease of access to a number of niche-specialized lawyers. In a nutshell, it is a platform that helps people seeking legal advice and consultancy from the best lawyers in the country. We aimed to build online community for lawyers and fresh graduates and even lawyers with each other's to discuss various legal issues. It leverages innovative digital technology to effectively connect lawyers from across the region with their prospective clients.

## 02. Objectives and goals

The project aims to provide a means to connect lawyers with members of the community to provide their legal advice in various fields in a professional, technical way. It also provides a link between the legal sectors and graduates to help them find their opportunity for training and obtain experiences that will help them build their careers.

## 03. Methodology

### Water-Fall Methodology:

An approach used to manage projects step by step :

- Requirement - analyze and documents what the project needs
- Design - plan the software architecture , create diagrams, and choosing the software mechanism
- Implementation - writing food and fixing problems
- Verification - test if everything in the code works how it's supposed to
- Maintainance - provide support to the software

Requirement

## 04. Tools

Flutter

Firebase

figma

Lucid.app

## 05. Results

Our app are able to do the required tasks :

- Create a new account for (users , lawyer , Admin) .
- Sing in ( users , lawyer , admin) .
- The user personal information page and modify his information .
- The user can communicate with the lawyer through messages .
- View the user's appointments that have been booked with the lawyer, and there are three sections, which are pending, upcoming, and completed .

## 06. Future work

- Improve the application and increased more features .
- Providing a space for discussion between lawyers about some cases in order to gain experiences from some of them, exchange skills and reach good results for resolving cases .
- A special section for training newly graduated students in this field to gain experience and practice the profession under the supervision of specialists .

## 07.Conclusion

- so we presented an application that brings together a group A variety of lawyers and those with distinguished experience in this field in order to provide awareness to all groups and reduce the percentage of ignorance of the laws and regulations of the country .
