## INTRODUCTION

Kids Delivery application is for delivering children to their schools, institutes, games or to any place specified by the guardian and reassuring him that his son has entered the place, easy payment and saving the time and effort of parents

## AIMS

- Save time and effort for the father.
- The child's self-reliance.

## PURPOSE

Some parents find a transportation crisis, but it is not easy to find a private driver, with the Kids Delivery app he can easily delivery his son

## METHODOLOGY

## CONCLUSION

Our application was made to help parents who do not find a private driver to deliver their children or who do not have time to take all their children to school and then go to work, we hope to be as they all think.
