

INTRODUCTION

Fashion has been spreading in Saudi Arabia lately therefor we wanted to come up with an idea that supports designers while being beginner and professional designer friendly

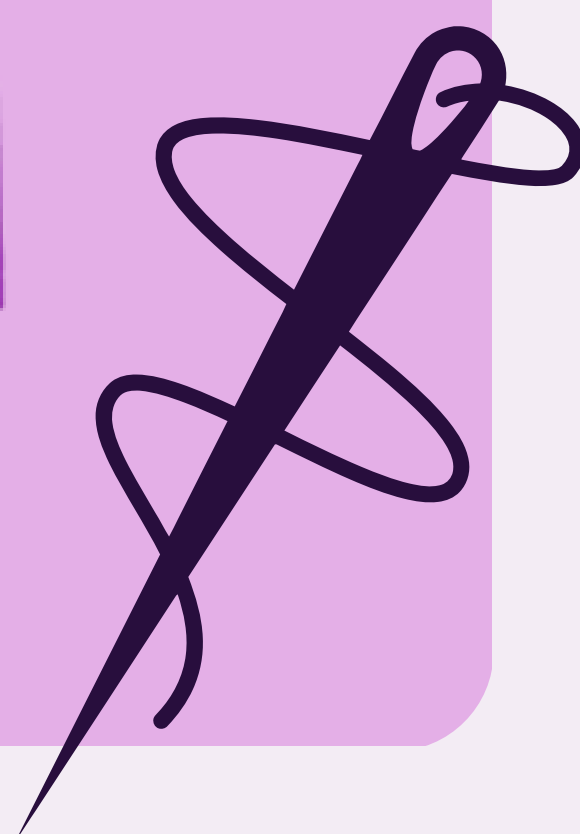

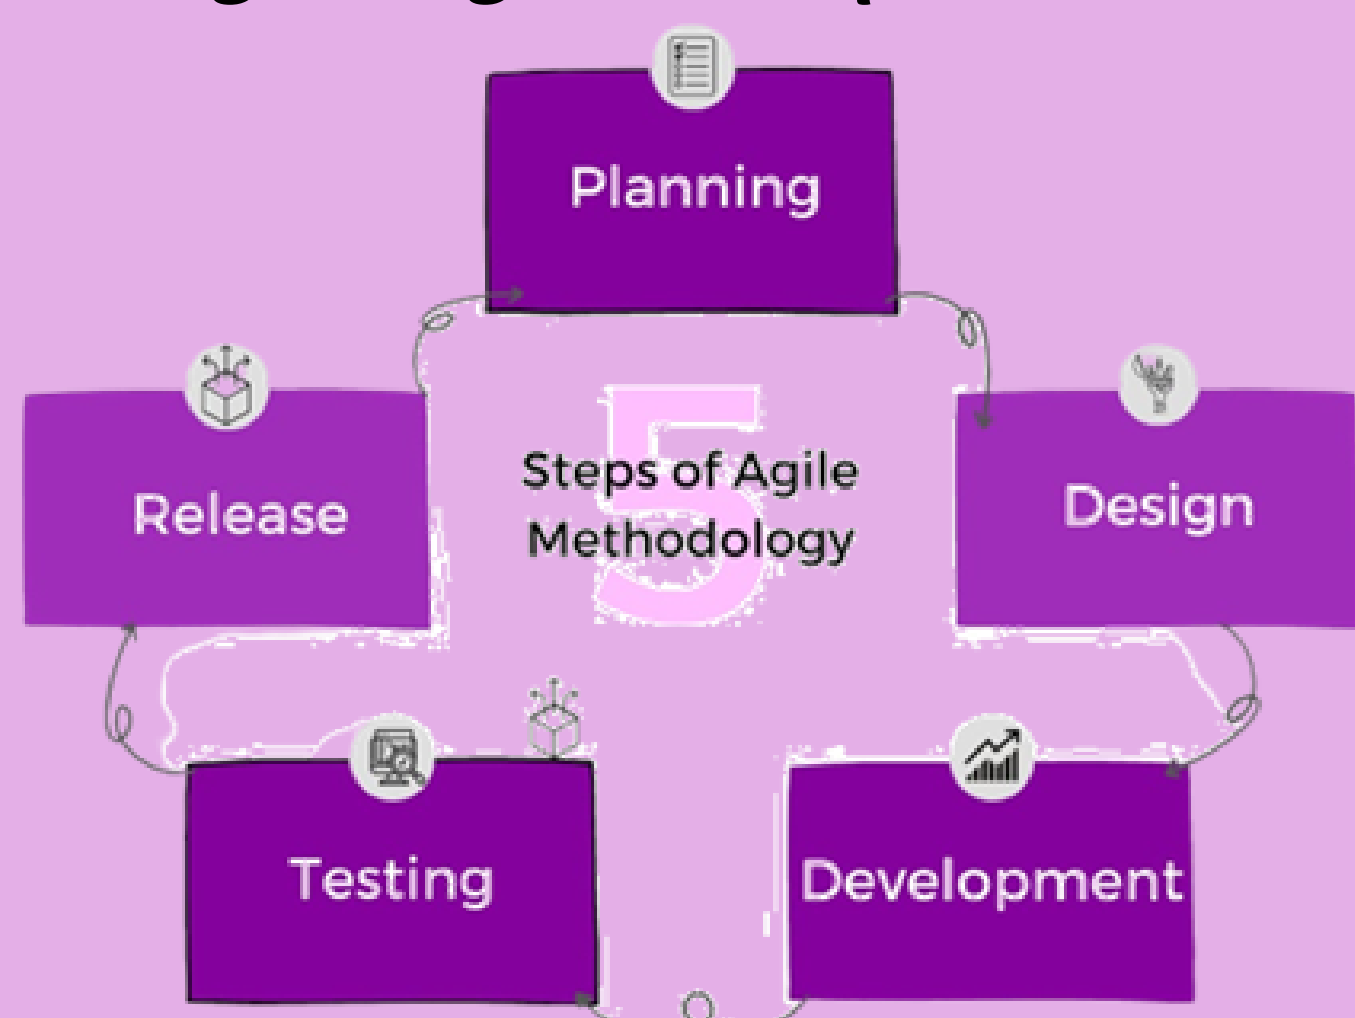

OBJECTIVE

- Quicken Design Process
- Provide Basic guides
- Purchasing tools feature

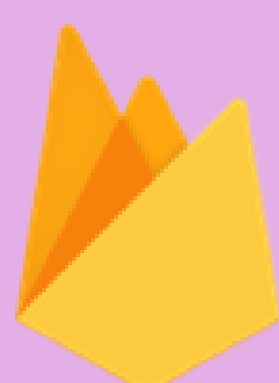

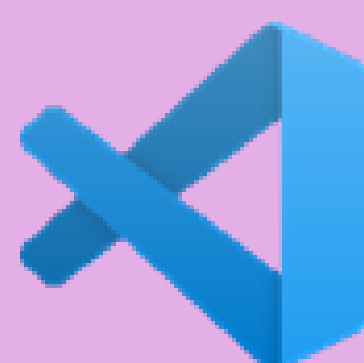

METHODOLOGY : AGILE METHOD

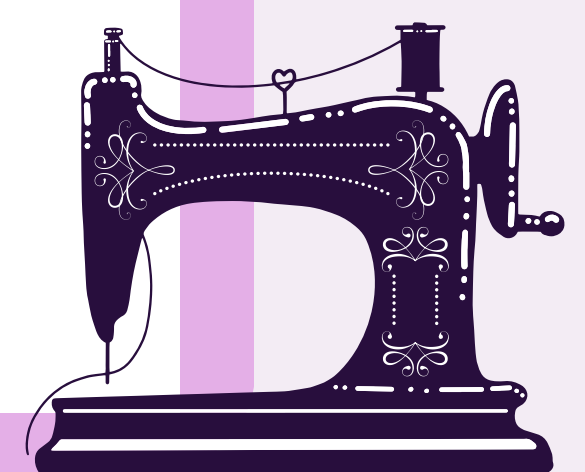

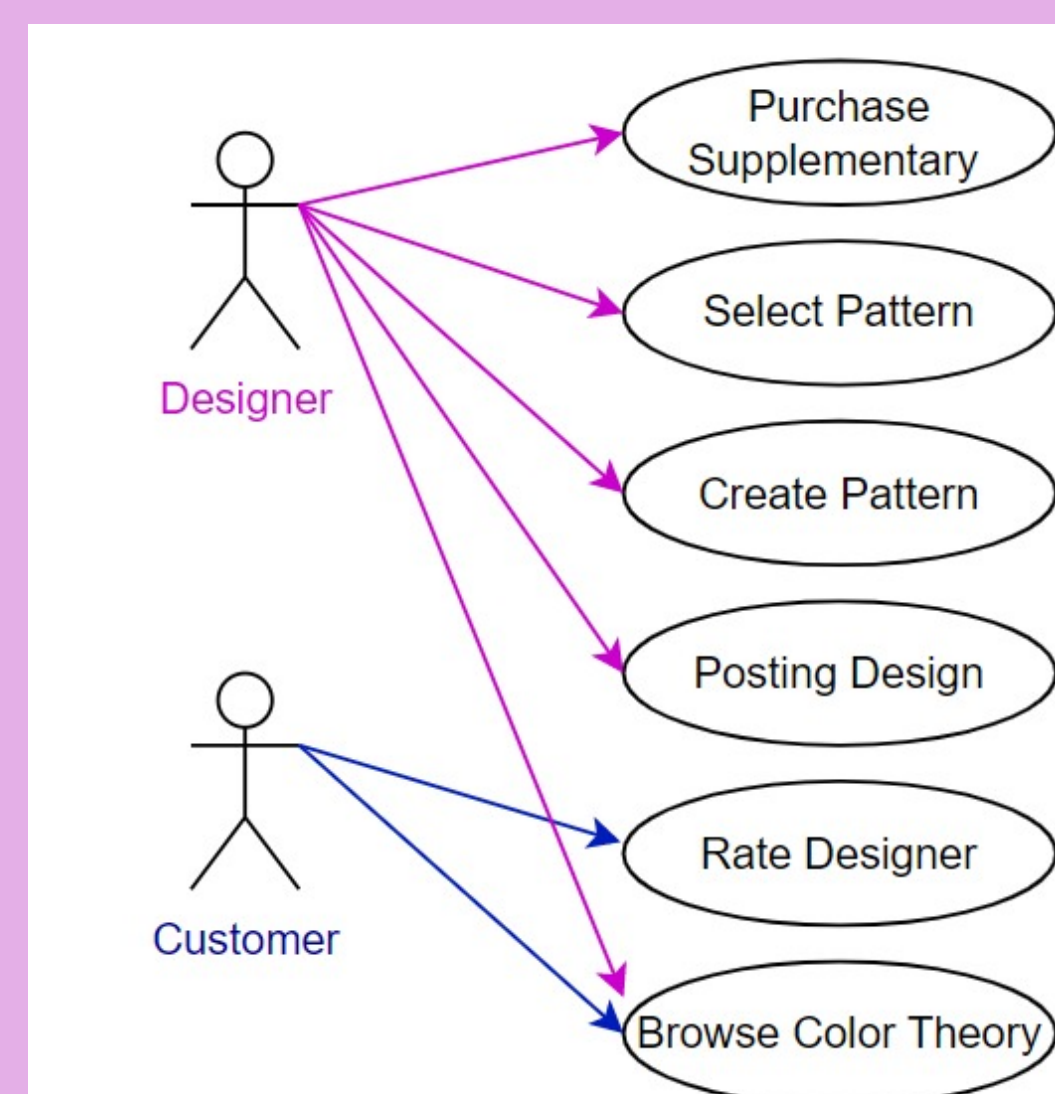

Planning , Design , Development , Testing , Release

TOOLS

USE CASE

RESULT

CONCLUSION

Since there is a noticed development in technology and recent support of fashion industry we have decide to develop a tool to support both fields In this project we tried to maintain easiness in visibility and supported all levels of designers

FUTURE WORK

- Adding boutique
- Adding tutorials
- Adding more complex pattern

Reema Almurayshid , Renad Almurayshid
Renad Al-duhaimy and Norah Al-Zahrani
