

**HOW MANY OPPORTUNITIES HAVE YOU MISSED BECAUSE YOU DIDN'T KNOW ABOUT THEM EARLIER?**

- 1 Tahadda will ensure the following:**
- A space is provided for organizations to announce their challenges.
  - The access process for contestants is made easy, centralized in one place, and presented in a clear and straightforward manner.

- 2 Methodology:**
- We used the Waterfall model to complete the project.

- 3 Main feature of the application:**
- Supports multiple languages: Arabic and English.
  - Displays all challenges on one page.
  - Enables commenting on the challenges and reading others' comments.
  - Provides easy communication with customer service.

- 4 Conclusion:**
- This software will connect organizations and competitors, especially for passionate individuals who have not yet found a community to which they belong.

**Future work:**

- Connect competitors and individuals through messages and video calls, as well as group chat.
- Recommendation system
- Email notifications
- Conducting usability tests.
- Enhancing security

**Implementation Tools:**

**Interfaces**
