ABSTRACT

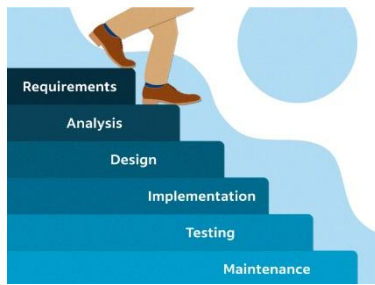

Since talented people need to share and spread their talents with their communities, there is a need to provide a quick and easy sharing service available anytime and anywhere. Talent App helps talented people to develop, share, and refine their talents. It offers a convivial space that brings talented and interested people together to exchange information and experiences. Furthermore, the talent app facilitates communication and connects gifted people with those interested in the talent. They can then sell, share, and find opportunities to develop and enhance their talents.

Aims and Objectives

The talent platform aims to allow individuals to showcase and earn from their talents efficiently and effectively. Among the most important goals of the platform are the following:

- 1- Discovering the rare talents of individuals and exploiting them for the development of society.
- 2- Providing job opportunities for the talented.
- 3- Easy access to the talents presented by the talented.

METHODOLOGY

DEVELOPMENT TOOLS

APPLICATION INTERFACES

CONCLUSION

In conclusion, the application integrated into this project covers most of the needs of the gifted person and helps him demonstrate his talent to obtain a job. The gifted person can benefit from their talents and display them. Clients can benefit from the talent on offer. Discover the talents presented and benefit from them. Guaranteeing the rights of gifted people and beneficiaries of talent. Easy to use, it supports talented people to manage their talents easily and efficiently.

FUTURE WORK

- 1- Make the application support more languages
- 2- Add a comment feature on the talents displayed
- 3- Adding the advantage of the number of talent purchases
- 4- Increasing the number of classifications
- 5- Add an option for users to report inappropriate comments
- 6- Add a page of notifications about opportunities in cooperative projects so that the talented person can obtain a job opportunity
